

CAREER OPPORTUNITY – TRAFFIC ENGINEER

RAM is a rapidly growing Vancouver based Engineering, Construction and Project Management Consulting Company. Our focus is in the utility, heavy civil and electrical sectors. We are seeking someone who wants the opportunity to directly contribute to the company's growth and development.

RAM is looking for a **Traffic Engineer** to be part of our Project Management team.

Qualifications:

- Bachelor Degree in Civil Engineering with a minimum of 10 years' experience relevant in traffic engineering and operations;
- Must be familiar with Lower Mainland municipal and provincial engineering standards and practices including MMCD;
- Registered Professional Engineer with APEGBC or eligible for registration;
- Excellent report and proposal writing skills;
- Familiar with relevant software like AutoCAD, Synchro, Paramics, and EMME;
- Strong experience in mentoring and managing EIT's, Design Technicians and Drafters;
- Effective verbal and written communication with public, clients, regulatory agencies & contractors;
- Experience managing Sub Consultants; and
- Experience with site inspections during construction.

Responsibilities:

- Auditing traffic control implementation;
- Arranging for the electrical design required for temporary modifications to street lighting and traffic signal infrastructure;
- Evaluating Contractor Bids for their experience and ability to execute traffic management plans;
- Producing traffic quality assurance checklists, traffic auditing forms and ensuring sustainability to address traffic management;
- Reviewing the Incident Management Plan and Implementation Plan prepared by the Contractor;
- Managing traffic, electrical, signal, and civil engineering Sub Consultants;
- Liaise with government and third-party stakeholders like Cities, MOTI, TransLink and emergency services;
- Leverage existing relationships to win new work; and
- Depending on the project, scope may include scheduling, estimating, contract administration and coordination experience.

Candidate Profile:

- High energy, well organized and detail oriented;
- Proven ability to meet deadlines/successful completion of deliverable and ability to work under pressure;
- Striving to ensure quality of finished products to clients;
- Team and client-focused;
- Fast learner and self-motivator; and
- A desire to embark on a unique and challenging career.

RAM is committed to employment equity and hires on the basis of merit. We encourage applications from all qualified individuals.

If this is the next step in your professional career, please forward your resume, in confidence, to luisa.hite@ramengineering.ca. We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.
